"Over the past four years Verde Sports Racing have been proud to use RFX products on all of their team race bikes. Using quality hard products on the Pro Race Bikes is essential to winning a top Pro race. For Brad Anderson to compete and win the European Two Stroke Championship, reliability on his race bike performing in tough conditions was key. RFX Hard Parts for a Hard Pro Rider who insists on the best. 100% reliable. Quality never compromised" Nikki Hessey - Team Owner/Manager - Verde KTM

WELCOME

When I look at these two pages, I realise just what a racing company we are. That's where it started for me personally in 1978 and 40 years later I am still going to the races week in week out.

We are proud to have so many riders and teams wanting to use our products at this level. From winning MXGP races this season with Shaun Simpson and Arnaud Tonus, to almost every Nationals title in 2017 with these riders above was awesome, but it takes a lot of work to create, build, test, develop and produce products that can win at that level. The whole team at RFX have done and continue to do great job bringing you the best products we can.

Remember to check out more cool products at www.racefx.com

Have a great season in 2018 and we'll see you at the races.

Paul Irwin
Managing Director

We would like to thank and give credit to Elliot Spencer for the photography we have used throughout the catalogue of all our sponsored riders at various events around the UK at the British Championships, MX Nationals and also around the globe at the World Championships.

RFX TAPER BARS F7

PRO SERIES

F7 Taper Bar
SRP £59.99

PRO SERIES

Replacement Bar Pads
SRP £13.99

F7 Taper bars are manufactured from 7075-T6 aluminium and feature Oversize Taper Extension (OTE) to give the ultimate strength and crash resistance, whilst Engineered Flex Technology (EFT) and Progressive Damping Control (PDC) helps provide just the right amount of flex and reduces machine vibration to help combat rider fatigue.

OTE is a lengthening of the central oversize (28.6mm) section. Increasing the oversize section to run past the final bend in the handlebar adds significant strength to the weakest part of any handlebar, couple this with a 5mm wall thickness that stays consistent even on the outside of the bends and the F7 taper bars are some of the lightest yet strongest bars on the market.

EFT is designed to give a small amount of flex in the bars. Carefully selecting an inner wall thickness of 5mm through the rise and taper area of the bars helps to reduce the effects of jarring in large impacts whilst providing the rider maximum front-end feel in corners.

PDC is created using a larger wall thickness of 5.3mm on the handlebar grip area, this has been calculated to balance and dampen against the effects of handlebar vibration. This is a similar principal to the handlebar weights used in sports bikes but is specifically designed and tested to suit the vibration range produced by modern high performance 4 stroke motocross bikes.

RFX Grips are manufactured from high spec synthetic Kraton Polymer and feature the vibration reduction benefits and stickiness of natural rubber but resist damage caused by sunlight and chemicals that occur with natural rubber.

RFX Grips feature a dual density design which allows for an external 60 SA compound that is more durable and resists crash damage. Yet has a soft centre 25 SA compound grip area for the best vibration resistance and comfort available.

RFX Grips use the industry standard half waffle design with a level RFX Logo on the palm, this upper diamond and lower waffle design gives the best combination of palm area comfort and lower grip for muddy conditions.

Dual Density Grip Features:

- Made using high spec synthetic Kraton Polymer for the ultimate sticky grip
- Dual compound tool design allows for the best combination of compounds
- 25 SA centre compound improves comfort and reduces vibration
- 60 SA end compound improves crash damage resistance
- Half waffle design gives the best combination of grip and comfort
- Smooth diamond pattern and level RFX logo on the palm area offer excellent grip without sacrificing comfort and causing blisters
- Available in 26 colour combinations
- Packaged in pairs for use with right hand twist throttle machines

PRO SERIES

FACTORY EDITION

Clutch Lever Assembly (CNC)

SRP £89.99

RFX Pro Series **FACTORY EDITION** clutch lever assemblies have been designed and tested with the help of top UK professional race teams.

The aim was to produce a lever assembly that is extra strong, includes an oversize quick adjuster for ease of adjustment when riding, a rubber boot that covers all the internals of the lever increasing service intervals, a lever with a pivot point bearing and a lever ratio that provides a positive yet light clutch actuation.

PRO SERIES

Description	Colour	Part Number	SRP
FACTORY EDITION CLUTCH LEVER ASSEMBLY BILLET			
Universal 2T/4T EFI with EZ Adjuster	Hard Anodised	FXCA 90600 99HA	£89.99
REPLACEMENT PARTS			
Clutch Lever	Black	FXCL 10200 99BK	£14.73
Rubber Boot	Black	FXCA 90601 99BK	£7.99
Boot Screw Set (M4x8) - 2pcs	Stainless	FXCA 90602 99SV	£0.99
Quick Adjuster & Screw	Hard Anodised	FXCA 90603 99H1	£19.99
Replacement Bolt Set - 4pcs	-	FXCA 90604 99SV	£9.99

Features:

- High grade 6061-T6 billet aluminium lever bracket
- Hard wearing hard anodised lever bracket
- Hard wearing hard anodised quick adjuster and screw
- Bespoke flexible rubber protective boot
- Oversize 50mm quick adjuster
- Machined stainless steel hardware
- Forged lever with pivot point bearing
- Ultimate durability and strength
- Lightweight
- Lasting stylish look

PRO SERIES

Clutch Lever Assembly (Forged)

SRP £64.99

RFX Pro Series clutch lever assemblies have all the same great features as the Factory Edition but include a forged lever holder with colour anodising instead of the billet machined part. This helps reduce cost and makes this an excellent affordable high grade lever replacement for everyday racers.

BRAKE & CLUTCH LEVERS

FOR FITMENT CHARTS & PRODUCT CODES SEE PAGES 140-143

PRO SERIES

Pro Series levers are manufactured using a metal forging process to increase inner core strength and resist damage in collisions. Featuring a needle bearing for a consistent smooth action. Black design with a laser etched RFX logo.

RACE SERIES

Race Series levers are manufactured using a metal forging process to increase inner core strength and resist damage in collisions.

SPORT SERIES

Sport Series levers are mass produced using die casting to drive down the cost, whilst maintaining a quality suitable for the average racer.

Flexible lever sets

SRP from £49.99

RACE SERIES

Replacement Pivot Repair Kit

SRP £3.99

Part no. FXFL 90000 55ST

(Fits both Race Series & Pro Series Models)

Race Series flexible lever sets are a forged aluminium construction and colour anodised for that pro-look.

Features:

- Fully flexible design allows levers to rotate outwards in accidents
- Reach adjusters to allow the levers to be perfectly adjusted to rider preference
- Stainless steel springs to resist corrosion
- Phosper bronze lever pivot inserts for smooth lever action
- Spring and bush rebuild kits available to ensure proper lever action at all times

FOR FITMENT CHARTS & PRODUCT CODES SEE PAGES 144-145

THROTTLE TUBES

PRO SERIES

Aluminium Throttle Tubes

SRP £29.99

CNC machined from billet aluminium, featuring a sealed bearing and a teflon sleeve to provide an effortless throttle action and reduce the chance of damage.

SPORT SERIES

Plastic Throttle Tubes

SRP £4.98

Sports Series throttle sleeves are an OEM replacement. Manufactured using Teflon coated nylon fabric to ensure a smooth feel and fit.

PRO SERIES

FACTORY EDITION

Flex+ CNC Gear Lever (CNC)

SRP £59.99

FOR FITMENT CHARTS & PRODUCT CODES SEE PAGES 146-147

RFX Hardware Pro series CNC parts are designed, tested and manufactured for the serious competitor.

Using our 30 years of racing and engineering experience we have blended quality designs, superior materials and precision manufacturing processes to create factory racing parts available to everyone.

RFX Flex+ Factory Edition gear levers offer the best in aftermarket replacement gear levers. Features a new style anti-stick tip which resists dirt build up thanks to an enclosed spring design, also included is a new style low profile tip bolt which stays tighter for longer.

Features:

- New Anti-Stick folding gear tip
- New enclosed tip design
- New low profile gear tip bolt
- CNC machined shaft and tip for increased strength
- Knurled tip for improved gear shifts
- Stainless steel spring & Pivot to resist corrosion
- Laser etched RFX logo

Flex+ CNC Gear Lever (Forged with CNC Tip)

SRP £26.99

FOR FITMENT CHARTS & PRODUCT CODES SEE PAGES 146-147

RFX Pro Series Flex+ Gear Levers have all the same great features as the Factory Edition but include a forged shaft instead of the billet machined part. This helps reduce cost and makes this an excellent affordable high grade lever replacement for everyday racers.

It Features a new style, colour anodised, CNC machined anti-stick tip which resists dirt build up thanks to an enclosed spring design. Also included is a new style low profile tip bolt which stays tighter for longer.

Features:

- New CNC Machined Anti-Stick folding gear tip
- New enclosed tip design
- New low profile gear tip bolt
- Forged shaft for increased strength
- Knurled tip for improved gear shifts
- Stainless steel spring & Pivot to resist corrosion
- Laser etched RFX logo

RACE SERIES

Forged Aluminium Gear Levers

SRP £16.99

RFX Race Series Gear Levers are the leader in OEM replacement gear levers.

Manufactured from high quality forged aluminium for improved strength and durability with spring loaded forged knurled tip for improved gear shifts.

Features:

- Forged aluminium shaft
- Forged knurled tip
- Laser etched RFX logo
- Colour anodised for that factory look
- Stainless steel hardware

Colour coded for bike make with a laser etched RFX logo

REAR BRAKE PEDALS

RFX Pro Series Brake Pedals are designed and tested at the highest level.

Pro Series Brake Pedals are manufactured from 7075-T6 aluminium and feature an OEM type forged shaft, a smooth finish on the shaft helps to reduce the wear associated with a ridged design.

Pro Series Flexible tips are CNC machined billet aluminium and features sharp teeth to help grip in muddy conditions.

Pro Series Brake Pedals also incorporate a cable brake snake, this helps prevent the pedal shaft being bent around in a collision.

PRO SERIES

FACTORY EDITION

Rear Brake Lever (Solid Tip) (Hard Anodised)

SRP £49.99

Features:

- New 7075-T6 Billet solid tip, with flow design.
- New optional Hard Anodized Factory Edition tip available for current models.
- New style brake snake with adjustable clamp.
- New Hard anodized black shaft to prevent corrosion and reduce wear.
- Supplied complete with bearings and bushes for selected models.
- Laser etched logo.

SRP £44.99

PRO SERIES

Rear Brake Lever (Flexible Tip)

SRP £44.99

RFX Pro Series Brake Pedals are designed and tested at the highest level.

Pro Series Brake Pedals are manufactured from 7075-T6 aluminium and feature an OEM type forged shaft, a smooth finish on the shaft helps to reduce the wear associated with a ridged design.

Pro Series Flexible tips are CNC machined billet aluminium and feature a spring loaded rotatable tip which under impact such as in a rut will spin to reduce damage. The tip also features Sharp teeth to help grip in muddy conditions.

Pro Series Flexible tips also incorporate a stop on the pivot tip, this stops the tip at 90 degrees of rotation preventing damage that can occur if the tip rotates under the clutch cover.

Pro Series Brake Pedals also incorporate a cable brake snake, this helps prevent the pedal shaft being bent around in a collision

Features:

- Made from 7075 aerospace aluminium construction.
- T6 heat treated to increase tensile strength.
- Forged shaft for increased core strength.
- Smooth shaft design to reduce surface wear.
- CNC machined billet flexible tip.
- Rotating action reduces impact damage.
- Mechanical stop on the tip.
- Incorporated brake snake.
- Colour anodised to prevent corrosion.
- Laser etched logo.

FOOTRESTS

PRO SERIES

Shark Teeth Footrests

SRP From £74.99

Factory Edition versions are available in a hard anodised Titanium grey, these give the footrest the ultimate in wear resistance.

FOR FITMENT CHARTS & PRODUCT CODES SEE PAGE 149

RFX Pro Series Shark Teeth Footrests are all new and feature a revolutionary tooth design.

New forward and backward facing teeth help increase rider grip even when the teeth start to wear, this is a major advantage over previous designs which relied on the sharpness of the teeth to hold the rider firmly to the pegs.

New minimalist inner brace design helps reduce weight and offers exceptional mud clearing capabilities. This design is only achievable using aerospace grade 7075 aluminium and T6 heat treatment.

New style teeth are fully replaceable and are held in using only three bolts, this enables the footrest to be easily kept in the best condition. Optional 5mm higher teeth are also available.

RFX Pro Series Footrests are available for all late model motocross and enduro bikes.

RFX Pro Series products are designed and tested with the help of top UK and International race teams

Features:

- New shark teeth style forward and rearward facing teeth for the ultimate grip.
- New minimalist centre design for reduced weight and mud clearing.
- New 57mm wide platform.
- Easily replaceable teeth with just a three bolt installation.
- 304 Stainless steel teeth for reduced service intervals.
- Optional plus 5mm teeth sets available.
- CNC machined from aerospace grade 7075-T6 heat treated aluminium.
- Available for all late model motocross and enduro bikes.
- Brand colour matched anodising.
- RFX Laser etched Logo.
- Tested by top UK and International race teams.

CNC MX Footrests

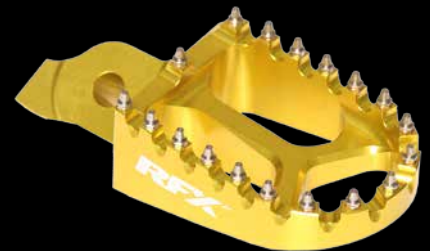

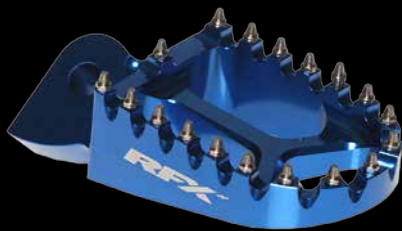

SRP £74.99

BEN CLARK
FTR SUSPENSION HONDA

FORKS

LAUNCH CONTROLS

PRO SERIES

2 Button Launch Control

SRP From £39.99

FOR FITMENT CHARTS & PRODUCT CODES SEE PAGE 153

The new dual button design allows rider preference in different conditions and features a new plunger which is machined further away to give greater clearance on new KTM models but also has extra reach to ensure max engagement.

The new hinged latch design eliminates snag on the rear of the fork guard by replacing the rear bolt with with two smaller bolts in the front. New deeper profile catch eliminates false disengagement when crossing the start gate. Hinged design also allows easy installation.

Features:

Button

- Allows for rider preference in different conditions
- Plunger sits further away to give greater clearance (KTM) and has extra reach to ensure max engagement
- Low profile design is only 20g heavier than single button
- Four bolt design for greater security
- CNC Aerospace grade billet aluminium construction
- Hard anodised colour

Latch

- Two bolt design ensures no hindrance on fork guard
- Deeper profile latch ensures maximum hold
- Easy installation due to hinged design
- CNC aerospace grade billet aluminium construction
- Hard anodised colour
- RFX laser etched logo
- Tested by top UK race teams

Launch Control

SRP £32.99

FOR FITMENT CHARTS & PRODUCT CODES SEE PAGE 153

RFX Launch Controls allow you to lower and lock the front suspension to stop the front wheel lifting under hard acceleration off the start gate.

CNC Machined from billet aluminium and featuring a hinged design to eliminate fork leg removal on installation, steel catch to reduce wear and a four bolt plunger to resist stone damage

Features:

- CNC machined from billet aluminium
- Hinged design to eliminate fork leg removal on installation
- Steel catch to reduce wear
- Four bolt plunger to resist stone damage

FORK AIR BLEEDERS

PRO SERIES

Fork Air Bleeder

SRP £12.49

Part numbers
(see chart below)

RFX Pro Series fork bleeders allow you to remove the excess air from both original cartridge and modern dual chamber forks (Please note not for use with air forks). This allows for proper operation of the forks as excess air makes the forks feel harder than normal and can eventually lead to the seals failing.

PRO SERIES

FORK AIR BLEEDER			
Model	Colour	Part Number	SRP

WP (M4x0.7)	Orange	FXFB 502M4 99OR	£12.49

Features

- Ensures proper fork operation
- Quick installation
- No tools required to operate once installed
- CNC aerospace grade billet aluminium
- Colour anodised for that factory look
- RFX laser etched logo
- Tested by top UK race teams

Fork Air Bleeder 2

SRP £12.49

Part numbers
(see chart on opposite page)

The fork air bleeder 2 feature a stainless steel body for improved durability and reduced tendency to strip on the threads, a common problem of existing fork bleeders.

Fit all Showa and KYB forks with M5 x 0.8mm air bleed hole threads (excluding air forks)

All WP Forks with M4 x 0.7mm
air bleed hole threads.
KTM 125-525 03-14

Features

- Ensures proper fork operation
- Quick installation
- No tools required to operate once installed
- CNC aerospace grade billet aluminium
- Colour anodised for that factory look
- RFX laser etched logo
- Tested by top UK race teams
- Quick and easy installation
- Instant smooth suspension results

FORK SHRINKS

RACE SERIES

Upper fork guard

SRP £24.99

360 degree upper fork guard protection for those expensive and very important USD (upside down) motorcycle forks.

Features:

- Made from a unique toughened polymer which offers 360 degree bespoke protection for your forks
- Glue lined internally which ensures this product stays put
- Protects the areas most vulnerable to damage when fitted to your forks
- Masks the imperfections on old forks and protects them from further wear
- Perfect for new forks and protects against any future wear and tear
- Cover the rear area of the fork and all the ridges including those that house all the important oil seals
- Ensures all areas are covered correctly by bespoke shrinking to the exact required size from the initial fitting.

RFX in conjunction with

FACTORY EDITION

Clutch covers

SRP £129.99

RFX Pro Series clutch covers are manufactured to increase oil capacity and circulation improving clutch performance and longevity. Featuring a deeper profile to increase oil capacity by 100cc helps reduce oil temperature in long races especially in extreme muddy/sandy conditions where clutch abuse is most common. Selected models also feature an internal scoop to increase oil flow to the centre of the basket.

RFX Pro Series clutch covers are CNC machined from a solid billet of 6061-T6 aluminium which allows thin light weight sections to be machined whilst still increasing strength and durability over standard covers. This helps to resist damage from stones/rocks/footrests and brake pedals which can hole a standard cover almost guaranteeing a DNF.

Pro Series covers also feature an extra tough dark titanium grey akadized surface treatment which drastically increases the wear resistance from boots and grit to give a lasting stylish look.

Features

- 1.5mm deeper profile for increased oil capacity
- Inner scoop design on selected models
- Reduced oil temperature
- High grade 6061-T6 aluminium
- CNC machined
- Ultimate durability and strength
- Lightweight
- Hard wearing akadized surface treatment
- Lasting stylish look

Vent tube prism counter top display

The RFX free standing prism holds up to 40 RFX vent tubes in this convenient counter top display.

Free with every 5 packs of vent tubes purchased.

Please note Vent Tubes sold separately from display

(minimum order 5 packs)

FUEL MIXTURE SCREW

RACE SERIES

Fuel Mixture Screw

for Keihin FCR Carburettor

SRP £8.99

Part numbers:

Red - FXMS 10100 55RD
Orange - FXMS 10100 55OR
Blue - FXMS 10100 55BU

Designed to replace the standard hard to reach fuel screw to allow for quick and easy adjustments at the track.

Available in red, orange or blue.

ENGINE TIMING PLUGS

PRO SERIES

Engine Timing Plugs

SRP £16.99

Features:

- 7075-T6 aluminium construction
- 8mm and 6mm hex key head
- Colour anodised
- Lightweight hollow design
- Accepts OEM O-rings

HONDA

KAWASAKI

RFX Pro Series engine timing plugs are manufactured from 7075-T6 aluminium for increased dimensional stability under high heat and pressure conditions. CNC machined for tighter manufacturing tolerances helps these plugs stay in place over standard plastic plugs which are prone to failing.

RFX engine plugs also feature handy 8mm and 6mm hex key heads for easier installation.

FILTER COVERS

PRO SERIES

Filter covers

SRP From £21.99

Features:

- 7075-T6 aluminium construction
- Increased flow rate design
- Colour anodised
- Lightweight hollow design
- Accepts OEM O-rings

RFX Pro Series oil filter covers are manufactured from 7075-T6 aluminium for increased dimensional stability under high heat and pressure conditions. The covers also feature an increased flow design for better oil circulation.

BRAKE DISCS

RACE SERIES

Brake Discs

SRP From £54.99

RFX Race Series Discs are designed and tested at the highest level by top World and British championship race teams.

Precision laser cut from high grade stainless steel and heat treated for wear resistance, RFX Discs also feature a special comaxit heatproof coloured finish on non-wear faces for the best corrosion resistance.

RFX Race Series Discs are surface ground to within 0.01mm for instant brake feel and reduced fade.

RFX Race Series Discs are the new price leader in OEM replacement brake discs.

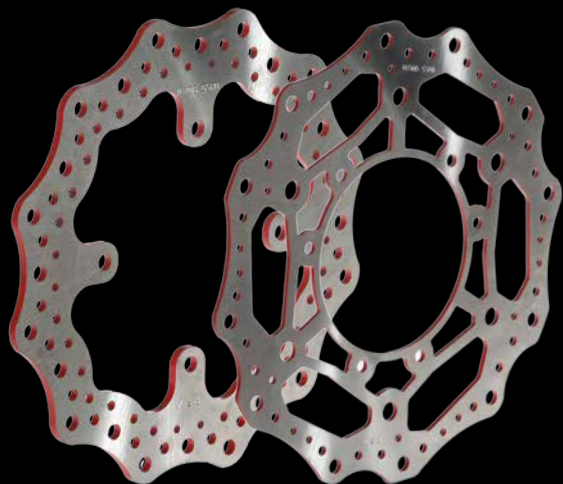

Features:

- Laser cut from high grade quality stainless steel
- Heat treated to withstand excessive brake pad wear
- Comaxit coating (metal colour surface treatment)
- CAD designed profile for lightness and reduced un-sprung weight
- Wave design ensures maximum pad cleaning
- Precision cut vented holes and wave design dissipate heat

BRAKE PADS

PRO SERIES

Brake Pads

SRP £14.99

Pro Series sintered copper brake pads are designed and tested at the highest level. A superior compound of elements are used to produce brake pads with exceptional stopping power, superior resistance to heat fade and a quick bed in time.

The sintered fully metallic copper formula is tested specifically to suit the motocross and off road pro rider. Our Pro Series brake pads provide stopping power and brake feel in excess of OEM brake pads, with the added benefit of improved pad life in the harshest wet mud and sand conditions.

Features:

- Premium sintered blend of elements with a large percentage of copper
- Provides exceptional stopping power
- Reduces heat fade in harsh braking conditions
- Facilitates quick bed in time
- Vacuum heat press manufacture ensures top quality adhesion to the backing plate
- Selected models supplied with a heat dispersing rear shield as OEM
- Suitable for all motocross and enduro machines from 50cc - 600cc

Fork Guards

SRP £19.99

RFX Fork Guards are produced using high resistance durable gloss polypropylene. Manufactured to the highest standards using the latest technologies to ensure OEM fitment but more resistant to wear. Available in a number of colours to help you get the custom look you require.

Features:

- OEM Replacement Plastic
- Durable Gloss Polypropylene
- Exact replica of stock OEM plastics
- Stock colour match or other colours available (White, Black or Full OEM colour)
- Gloss Finish which is less prone to scratches
- Highly Resistant Plastic
- Pre drilled for easy fitment

Available for a full range of bikes and models. For more information regarding fork guards please speak to your Area Account Manager or call the Sales team on 01254 311222.

DISC GUARDS

PRO SERIES

Disc Guards

SRP £14.99

(Available in 7 colours)

PRO SERIES

Disc and Caliper Guards

SRP £14.99

(Available in 7 colours)

RFX Pro Series Disc Guards help reduce brake disc damage by preventing rocks and roost from hitting and damaging the disc. RFX Disc guards also feature a wheel spacer fitment to speed up wheel changes whilst the design still allows the calliper to be cooled by air for improved braking. Suitable for use with oversize discs.

Features:

- High strength plastic guard
- Protects brake disc from rocks and roost
- Accepts oversize 270mm brake discs
- Allows air to cool the brake calliper unlike most OEM guards
- Bracket replaces wheel spacer for quicker and easier wheel changes
- Billet aluminium bracket construction
- High stick 3M colour coded RFX decal
- Multiple colour combinations available
- Model specific bracket is required

PRO SERIES

Elite Rear Sprockets

SRP £28.99

Designed and tested at the highest level by top World and British championship race teams.

CNC manufactured from 7075 aerospace grade aluminium and featuring mud clearing grooves for maximum wear resistance and improved chain life.

RFX Elite sprockets feature a CAD designed profile and include a solid inner ring, this increases torsional strength and reduces flex and pressure on bolt holes.

FOR FITMENT CHARTS & PRODUCT CODES SEE PAGE 166-173

Features:

- Laser etched RFX logo.
- CNC Machined from 7075 aerospace aluminium.
- Mud clearing grooves for longer lasting sprocket life.
- Colour coded for each model of bike.
- CAD Designed profile for Lightness
- Rigid Design increase torsional Strength
- Tighter Tolerances improve performance
- Colour anodised for that Factory Bike look
- Various colours available for all models.

PRO SERIES

Armalite Rear Sprockets

SRP £44.99

RFX Pro Series Armalite sprockets are designed and tested at the highest level by top World and British championship race teams.

New dual ring design gives the ultimate sprocket performance, reduced weight thanks to a 7075-T6 aluminium centre and long lasting teeth life thanks to the high carbon steel outer.

Armalite sprockets also feature a hexagon drive interface between the inner and outer ring, this is revolutionary technology for sprockets and maximises drive between the two parts and reduces the force on the rivets to zero unlike the competition.

Features:

- CNC 7075 Aerospace aluminium Inner ring
- HCS Outer Ring
- Hex-Drive location between inner & outer ring
- CAD designed profile for lightness.
- New style mud clearing grooves to reduce wear.
- Rigid design increases torsional strength.
- Colour anodised for that factory bike look.

FOR FITMENT CHARTS & PRODUCT CODES SEE PAGE 166-173

RFX HCS

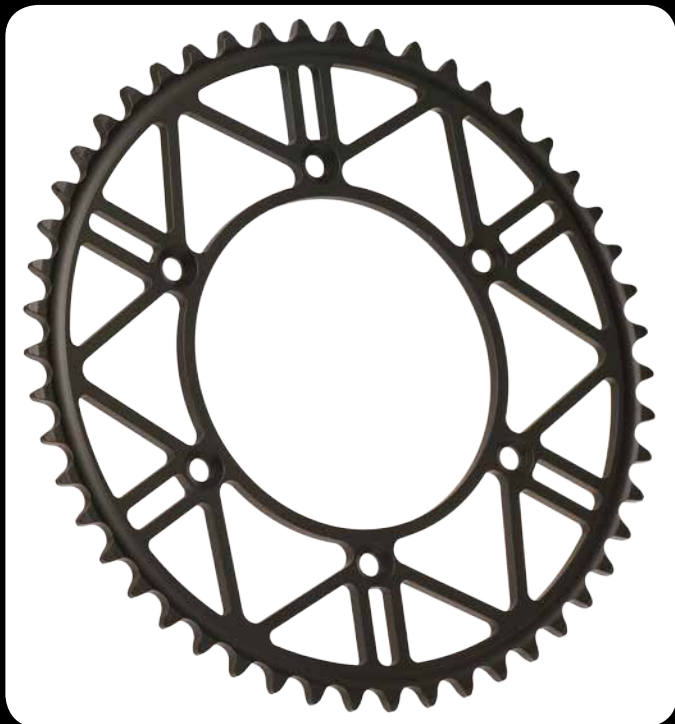

STEEL SPOCKETS

PRO SERIES

HCS Rear Sprockets

SRP £28.99

RFX Pro Series Hi-Carbon Steel (HCS) sprockets are perfect for the rider looking for longevity and value for money from their sprockets while offering genuine quality not found elsewhere.

Certified Hi-Carbon Steel offers unbeatable wear properties and its added strength over mild steel allows for a lighter profile design, this means the weight increase over aluminium is kept to a minimum.

RFX HCS sprockets are precision laser cut for more precision and tighter tolerances.

Features:

- Certified Hi-Carbon Steel
- CNC laser cut
- CAD designed profile for lightness.
- Mud clearing grooves to reduce wear
- Rigid design increases torsional strength
- Tighter tolerances improve performance

WHEEL SPACERS

PRO SERIES

Wheel Spacers

SRP £11.99

RFX Pro Series wheel spacers are lighter and more durable than OEM. Constructed from 7075-T6 aluminium with an anodised finish for durability.

Reduces surface wear and the amount of dirt entering the hub which in turn extends the life of the bearing.

Designed with a rear lip which helps to keep them hooked into the seals, reducing the chance of falling out during maintenance and speeds up wheel changes.

BIKE STANDS

PRO SERIES

Single Pillar Lift Up Bike Stand

SRP £49.99

Part numbers:

Orange - FXBS 30000 99OR

Black - FXBS 30000 99BK

Blue - FXBS 30000 99BU

Red - FXBS 30000 99RD

Green - FXBS 30000 99GN

Yellow - FXBS 30000 99YL

HI VIS - FXBS 30000 99HV

A heavy duty single pillar lift up design. Manufactured in heavy duty steel and designed with a wide stand footprint for stability and a non-slip rubber mat for bike security.

The single pillar design features a solid nylon bush and a lever arm with a progressive linkage to provide the smoothest and easiest action possible.

Powder coated to resist fading in sunlight and washing chemical contact. Available in four colours to suit 125cc-600cc machines.

SPORT SERIES

Lift Up Bike Stand

SRP £38.99

Part no FXBS 10000 00BK

RFX Sport Series lift up bike stands are ideal for all models from 50cc-650cc (up to 150kg).

Ready built so no construction is needed and feature a non slip top.

WET JACKETS & RAIN COATS

RACE SERIES

Wet jacket (youth)

SRP £14.99

Wet jacket (adult)

SRP £17.99

Perfect for those muddy meetings. Featuring underarm and back venting, taped seams, lycra wrist and waist binding and reflective piping.

Constructed from a clear PVC to enable race gear and riding numbers to be seen.

RACE SERIES

Rain Coats (long)

SRP £24.99

Perfect for those muddy meetings, as a spectator or a mechanic for washing the bike.

Featuring underarm and back venting, taped seams, lycra wrist, reflective piping and zip front. Constructed from PVC to ensure strong protection and weather resistance.

BRAD ANDERSON
VERDE KTM

BEARINGS

BEARING KITS

RFX Race Series bearing kits are the new price leader in replacement motorcycle chassis pivot bearing kits. Supplied complete with all bearings, bushes and seals required for a one stop rebuild of your motorcycle or ATV chassis and suspension.

Kits are provided separately for each individual pivot point.

RFX use only premium quality bearings and seals in their Race Series chassis rebuild kits.

Features:

- Full complement bearing design for increased load resistance
- Precision ground needle rollers
- Cadmium plated bushes for increased durability
- Meets OEM Standard
- Contain all bearings, seals, washers and collars needed
- Kits available for most models

Available kits:

WHEEL BEARINGS

SPORT SERIES

RFX wheel bearings are premium quality and feature two rubber seals for increased wear protection. An ideal replacement for your standard wheel bearings and are suitable for the most extreme off road conditions. Please refer to the fitment and price chart to check the availability of bearings for your bike.

PRO SERIES

Pro Series products are CNC machined using only the highest grade aerospace aluminium to produce products for the pro level racer where machine failure is not an option.

RACE SERIES

Race Series products are manufactured using a metal forging process to increase inner core strength and resist damage in collisions.

SPORT SERIES

Sport Series products are designed and manufactured at a price suitable for all racing budgets utilising mass production techniques such as die casting to drive down the cost of everyday racing items, whilst maintaining a quality suitable for the average racer.

OTHER BRANDS IN THE RACE FX PORTFOLIO INCLUDE:

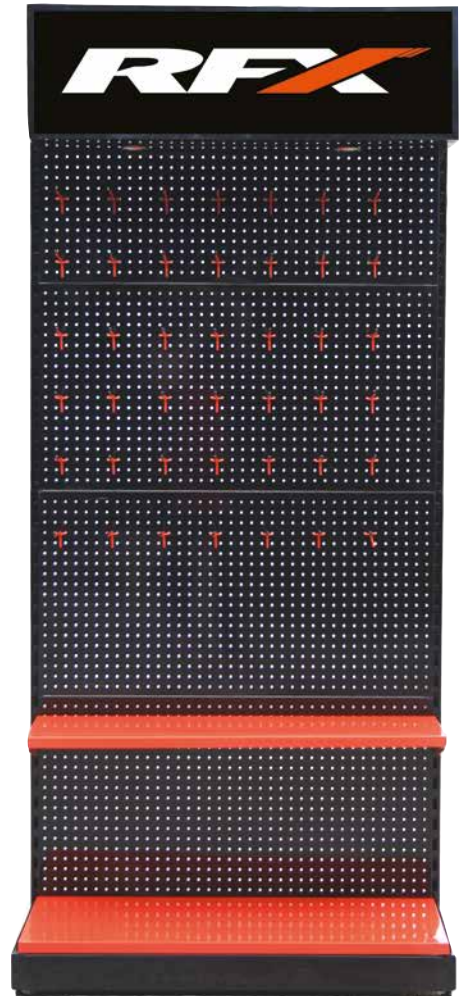

POINT OF SALE

RFX Hardware point of sale stands

The RFX Hardware point of sale display stand (pictured right) is 100cm wide with a minimum height of 220cm and is fitted with a light box that requires a power supply. The stand is supplied with one full width and two half width shelves, along with all the necessary hooks to dress the stand. The stand will arrive flat packed and some assembly will be required.

Please speak to your Account Manager for more information or call 01254 311222 to discuss the different packages available.
