Start on the right path

We know you know the feeling. The rush at any given dawn. To get out there, grab your favourite cycling gear and take to the road, the trail, the city. And it's precisely because we understand that surge, that we at LaSalle Sports keep on the track we've chosen just a few years ago. Developing cycling focused accessories that not only improve the ride, but will want to make each and everyone pedal more.

With the second edition of our Product Catalogue we bring you the continued offer of our former market releases, coupled with a significant number of new products, many of them resulting from inputs, meetings and brainstorming sessions we've had with our partners, riders and friends.

We are part of the World we inhabit. In order to take care of it, we must also take care of us. The LaSalle Sports team is devoted to its mission of pedalling with you towards a cleaner and safer environment.

At LaSalle Sports we believe that cycling makes people's lives better. Everyday, all across the the World, cycling helps friends and families gather; it makes people go to work more easily; it allows them to enjoy outdoor life in ways never thought of before. Cycling is about taking children and their teachers to schools, about mobilising local communities to meet and engage in activities that reduce our global carbon footprint. This is why we became the first Portuguese company to support one of the most renowned cycling organisations across the USA: People for Bikes.

We strive to make our world a better place for bikes, but especially for cyclists. So we invite you to share with us your Spirit of Riding.

LOUISIANA MOUNTAIN FENDERS

- TOOL REQUIRED
- 27,5" > 29"
- Ø19,6 > Ø35
FORK TUBES
- Ø25,4 > Ø35
SEAT TUBES
- IRP
IMPACT RESISTANT POLYMERS
- SUPERIOR THERMAL DURABILITY

Available
in 2019

Wider than usual? Yes. Sturdier than most? Yeap. An exclusive and patent pending seatpost fixing system? Indeed.

Being one of LaSalle's main premieres in this Catalog, our upcoming Louisiana fenders were developed with an utmost attention to every detail, with a special focus on their structural performance and their purposeful looks.

They boast a "new edge" design which is better suited to wheel sizes above the 27,5 inches diameter mark and are a perfect match for your 'Niner or even your Fattie. Whatever your machine, they're sure to raise the envy of your team mates and rivals alike!

ARKANSAS DIRTBOARD

The ARKANSAS Dirtboard is a central flap with a sleek new design. Featuring a slightly enlarged lower half, it's sure to protect the bike's frame, water bottle and well... the Rider.

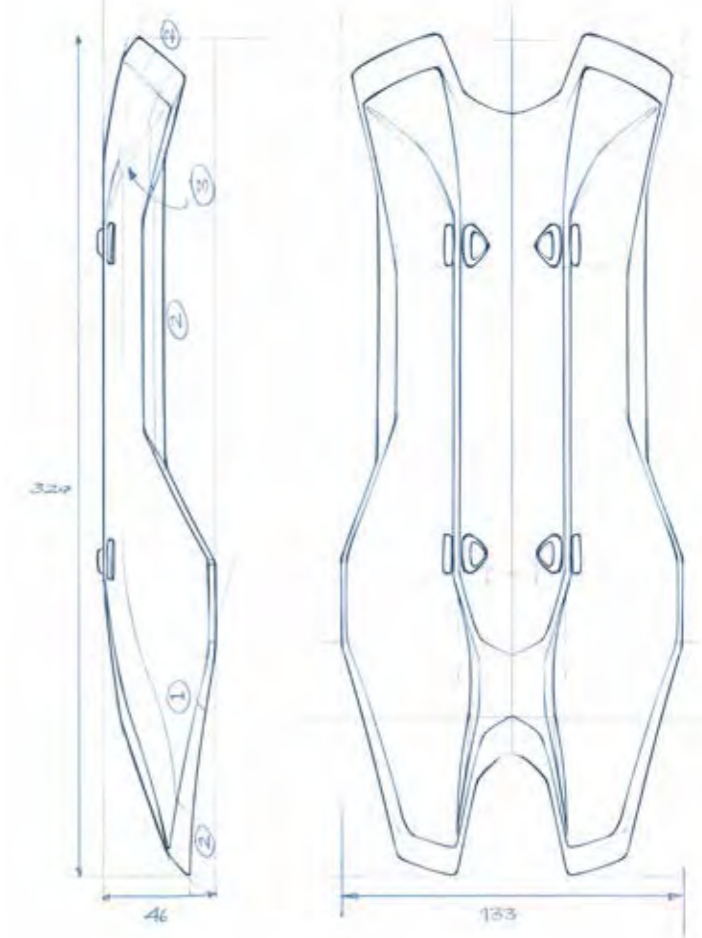

With an easy-to-fit pair of friction rubber straps, you can mount/dismount this Dirtboard without tools in a couple of minutes. Plus, its soft rubber Tube Pads act as cable spacers and insure that you keep your brakes' performance, while protecting the bike's downtube without ugly dents or nasty scratches.

OREGON MOUNTAIN FENDERS

Many designs are inspired by nature... And that was what we at LaSalle Sports sought to achieve with our OREGON models.

Carrying a timeless design and a truly dynamic shape, this set of Rear and Front fenders, feature robust mounting systems in both connections and are aimed at providing an efficient protection for the rider while offering an unobtrusive presence when riding the favourite machine.

Additional features

Front & Rear Fenders are sold separately but can also be bought in a set that includes both models.

NEVADA RACE PLATE

If you're going to build and fine-tune a racing machine, it's well known no detail should be left to its own. So, whether it's to top off your efforts or to equip a whole peloton of a race you're helping to put together, LaSalle's NEVADA Race Plate will soon hit the market, offering the chance to truly make your race stand out from the rest!

Thoroughly designed airflow vents improve your ride's aerodynamics, while offering a wide range of mounting possibilities for a variety of handlebars / brake cables with the supplied cable ties.

Catalog 2018/2019

KANSAS DIRTBOARD

Tech Info

KANSAS Dirtboard
Max. Width: 130 mm
Max. Length: 320 mm
Weight: 95 g

Additional features

Made from Impact Resistant Polymers
Superior Thermal Durability
Fits most MTB frames
Recommended for all wheel sizes
Easy mounting
Lightweight
Brake cables compatibility
100% recyclable materials

Available colors

Dirtboard	Corsa Red	Denim Blue	White	Black	Lemon Yellow	Lime Green
Rubber Straps & Tube Pads	Denim Blue	Corsa Red	Black	White	Lime Green	Lemon Yellow
Reference	5600966400019	5600966400385	5600966400392	5600966400408	5600966400415	5600966400422

With its aggressive looks and a solid cocoon shape, the KANSAS Dirtboard is a purpose built central flap that will withstand evenly thick mud splashes as well as serious impacts from a more adventurous downhill descent. While the heavy duty friction straps will keep the part in place, the top rubber Tube Pads will insure a tight and silent protection, all in favour of a better ride.

NEBRASKA MOUNTAIN FENDERS

For many of us, bicycles are a perfect fusion between Design & Engineering: they are mechanical works of art.

So with the insight to offer the market a product that's a true extension of this technical & cutting-edge look to the bikes' protection gear, LaSalle Sports' Development Team set out to design a product that would hit this target: the Nebraska model range.

These fenders are a balanced mix between a highly strengthened chassis set of chassis and feather-weight color flaps, all assembled together for serious adventure rides. The way they're carefully designed, bent & bolted make their structural stiffness highly efficient, ready to perform in the harshest competitive scenarios!

NEBRASKA HANDGUARDS

Handguards have been, for long, an all-important piece of gear for dirt bike riders. So it's only natural that the same concern is shared by some hard-core enthusiasts of Mountain Trails, particularly, die-hard downhillers!

Sharing the same design philosophy of our fenders bearing the same name, you'll find the same featherweight flaps reinforced by left & right exoskeletons, all held tight to the bike's handlebar by neat but resistant supports. Let your hands do what they do best, worriless of the debris and stones that may come in your way.

Please consult us for the specifications and market availability of this product.

Available in 2019

ALASKA DOWNTUBE SHIELD

Ah... Bike frames! Treat them nicely and they'll reward you with endless hours of joyful ride. LaSalle's ALASKA Downtube Shield is made from Impact Resistant & Thermally Durable raw polymers, and it's incredibly lightweight.

Fastening on the frame is quick, assured by a double set friction rubber straps, while the bottom grip pads come in two sizes, for an improved fitting on different frame geometries.

ASPEN SNOWMASS FATBIKE FENDERS

TOOL REQUIRED

26" > 29"

SEAT TUBES

IMPACT RESISTANT POLYMERS

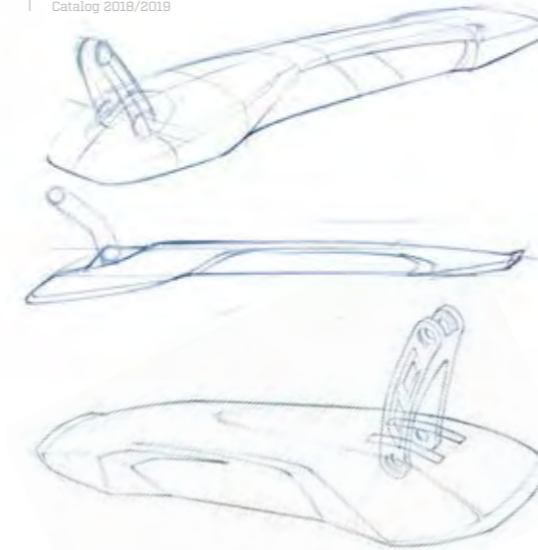

SUPERIOR THERMAL DURABILITY

Tires have grown, and so must fenders!
For this reason, LaSalle is premiering a specific protection for your Fat Bike: large enough to keep you covered from snow, debris or sand. Light, so that you have a minimum increment in your full ride weight!

A high-grip set of rubber straps will hold the dirtboard in place while, at the rear, a double pivoting arm will allow a "fender-to-wheel" adjustment in the best possible way.

Available in 2019.

UTAH FLAT-FOLD FENDERS

“Simplify, then add lightness”. This moto is known to have guided the professional life of a famous automotive founder and its marque. But it’s also very much in tune with the concept behind our new UTAH range.

Made from feather-weight sheets of plastic, cut & bent in specific areas and edges, you can take to the trail with minimum effort but maximum efficiency. Best of all, the rear-wheel fenders can be installed or removed within seconds, kept on your backpack and doing away with no tools at all.

Tech Info

UTAH #1
Front Fender
Max. Width (flat): 280 mm
Max. Length: 267 mm
Weight: 30 g

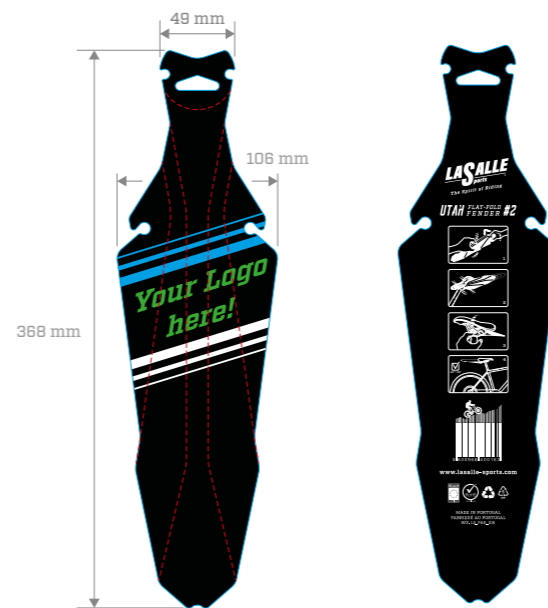

Additional features

Made from durable but thin plastic sheet
Fits a wide variety of suspension forks and complex geometries
Recommended for all wheel sizes
Easy mounting and ultra-lightweight
Especially suited to competitive riding
For the UTAH #1, 6 tie-wraps included
(4 needed to mount the fender)
100% recyclable materials

INDIANA TRAIL BLAZERS

TOOL REQUIRED

26" > 28"

IMPACT RESISTANT POLYMERS

SUPERIOR THERMAL DURABILITY

On one hand, you've always loved the road. On the other, you have forever longed for those days unravelling a hidden nature path. Tarmac or trail is no longer a dilemma, for the trend for Gravel bikes is now a well-established competitive subject among many die-hard enthusiasts.

That's why the Indiana Trail Blazers have been developed with a focused goal to protect the rider and your Cyclo-Cross bike, while doing away with any need for screws and holes in the frame.

Whether you have a wicked geometrical frame or a more classic set of wheels, if you want to ride in the trail, hop on to the asphalt and embrace the mud yet again, you'll be glad to know that you've met these riding mates.

KENTUCKY ALUMINIUM CITY FENDERS

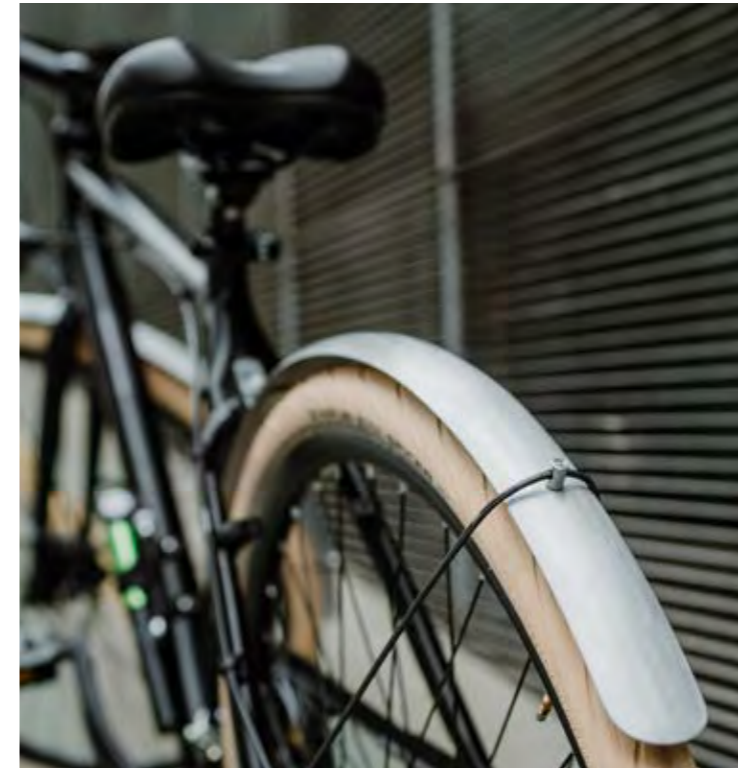

TOOL REQUIRED

26" > 28"

Available
in 2019

Every once in a while, some may feel the need to get back to basics. If one's life is mostly spent in a crowded and busy downtown, there are sides of our lives that we absolutely need to keep simple.

So we felt it was the right time for LaSalle Sports to develop a set of fenders based on where it all began: metal. The Kentucky Aluminium City Fenders are as sleek and stylish as you can possibly imagine and from the next season onwards, we plan to launch this product to a clientele that is similarly nostalgic as it is knowledgeable.

Feel free to visit our website and follow us on our social media pages to stay in the know for more details regarding this product!

Please consult us for the specifications and market availability of this product.
