2022

CONTENTS

WELCOME

Welcome to the new 2022 RFX product guide where you will find the most up-to-date range of off-road hard parts including handlebars, kick starts and brake discs.

We have been developing product since 2003 and are still passionate about manufacturing the highest quality parts. Working in conjunction with our World and National Championship race teams and riders, we strive to produce new and improved products to stay one step ahead of our competitors.

Our aim is for RFX to be the sought-after brand by every Motocross, Enduro and Trail rider throughout Europe.

New for 2022

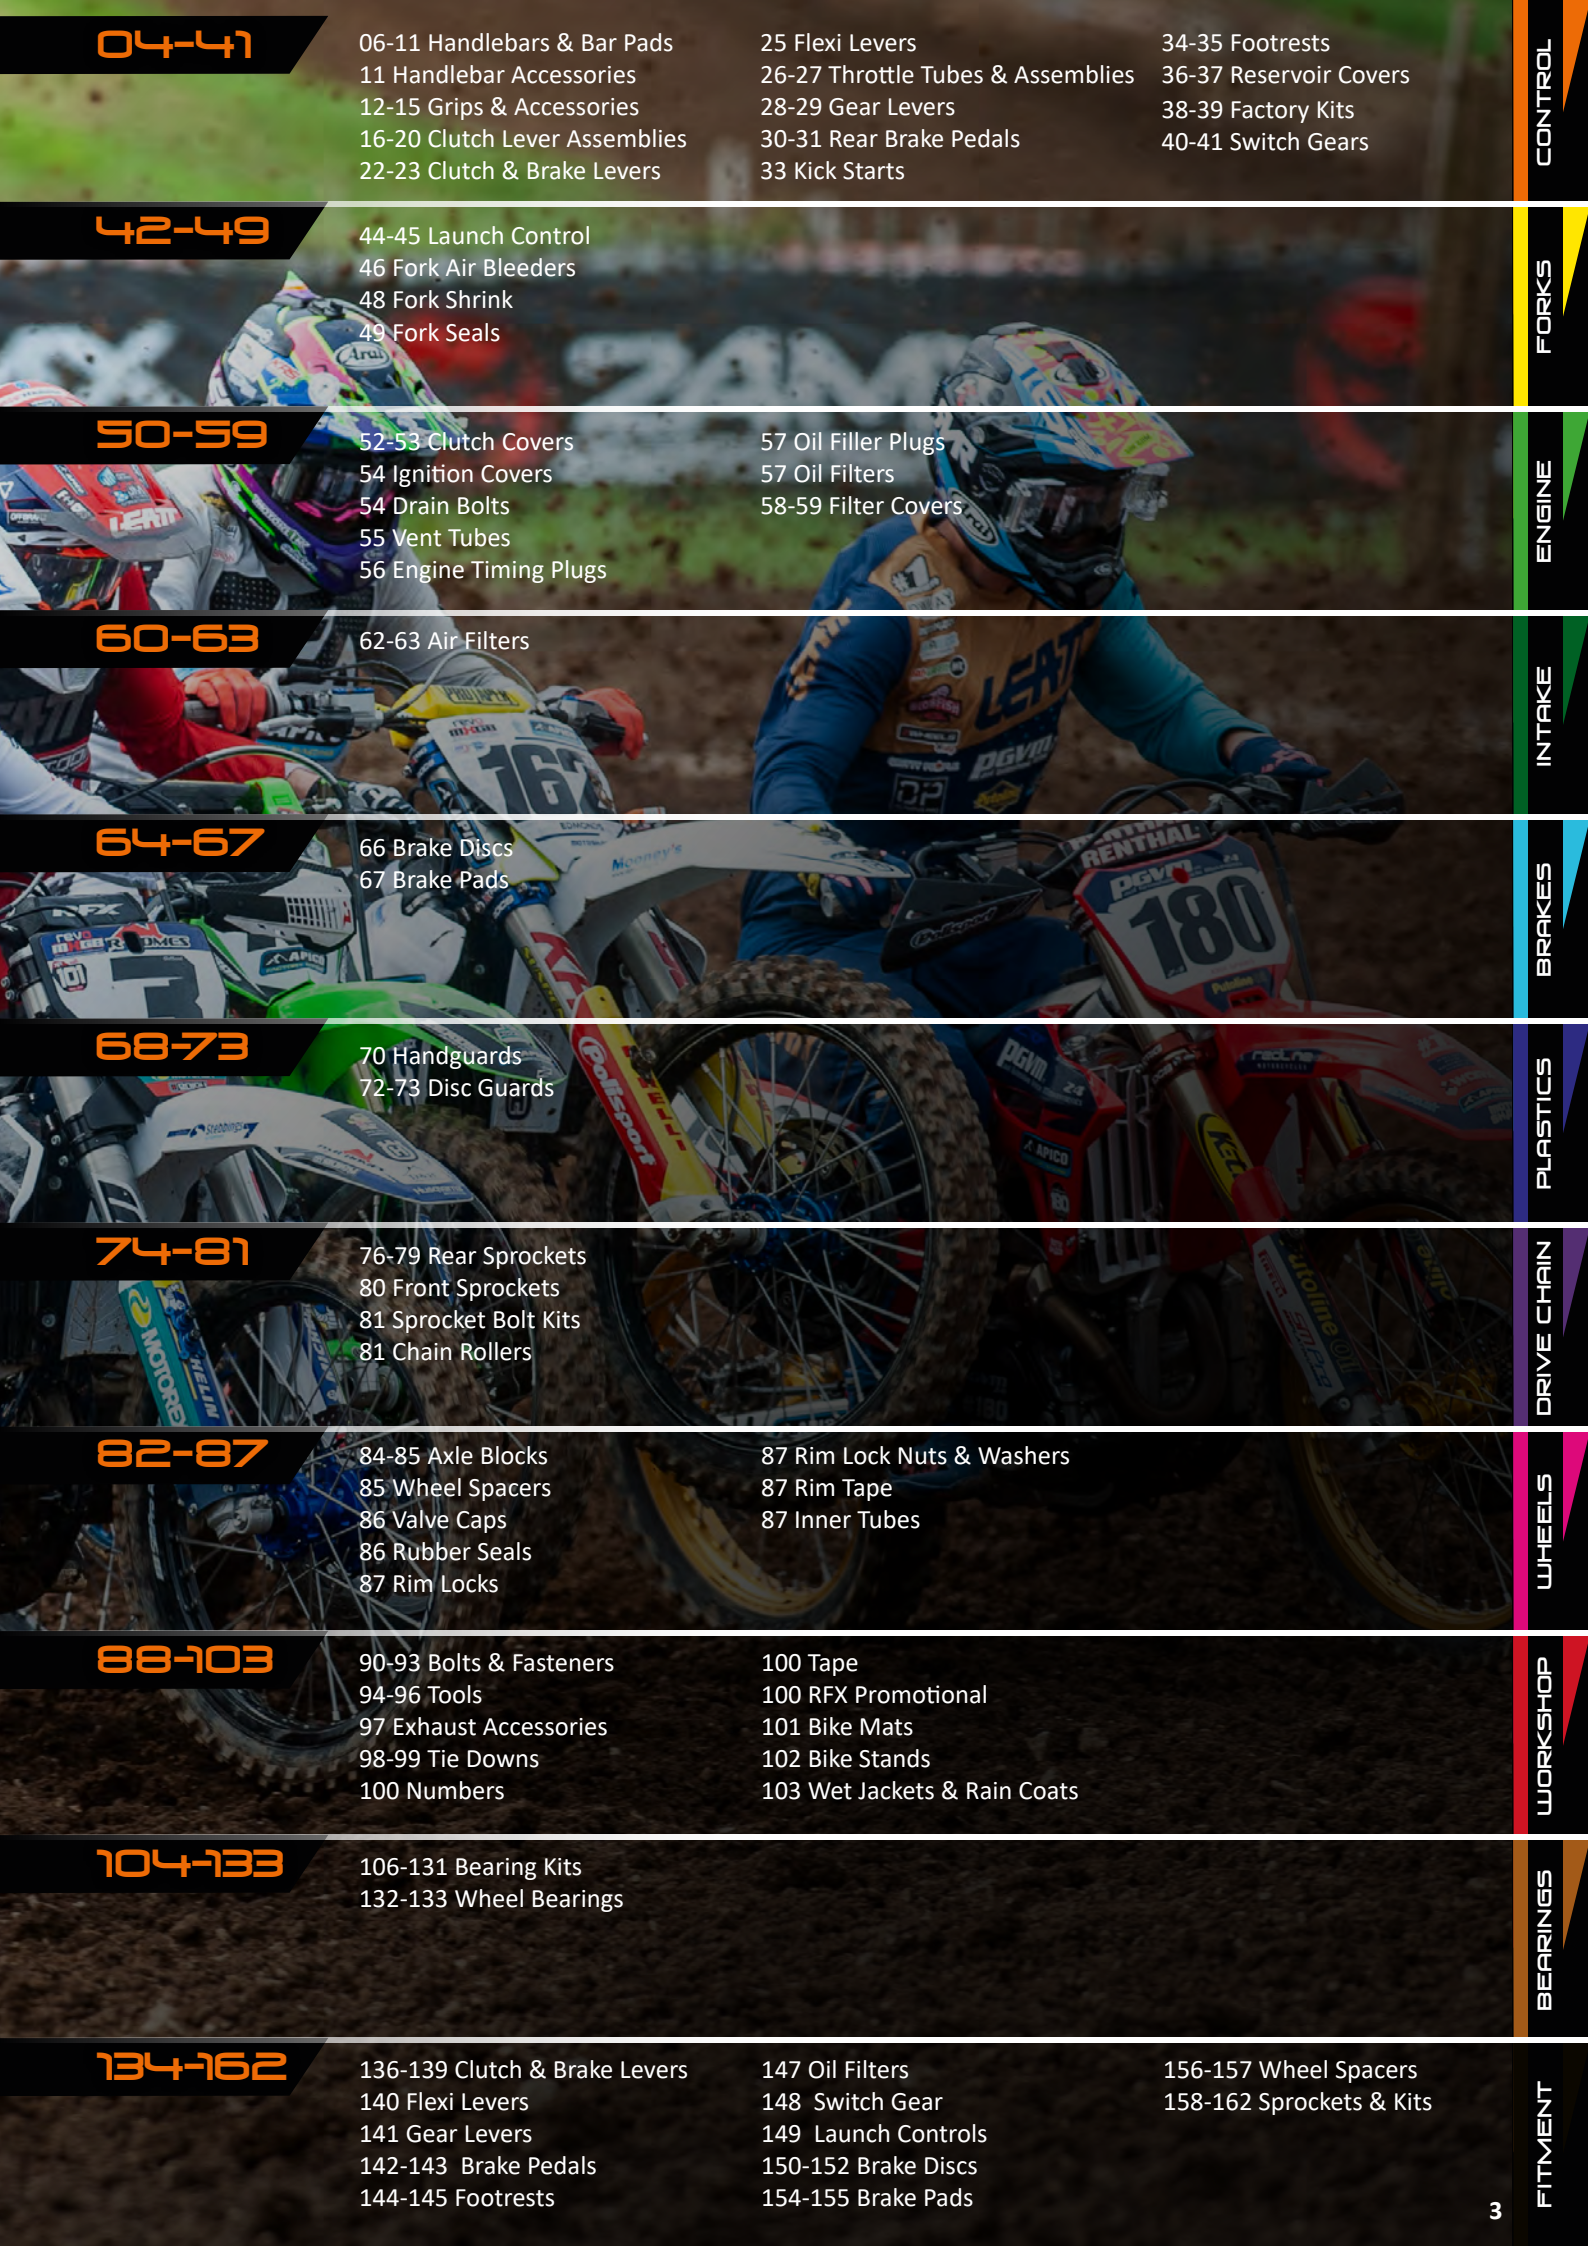

Some of the product highlights this year are:

- Page 14 - Grip Donuts
- Page 38 - Factory Kits
- Page 62 - Air Filters

RFX is proud to remain a partner of the Michelin MX Nationals British Motocross Championship powered by Milwaukee for 2022.

F7 Taper Bar

F7 Taper bar features:

- 7075 aerospace aluminium construction
- T6 heat treated to increase tensile strength
- Shot peened finish to prevent surface stress fractures and increase bar life
- Oversize Taper Extension (OTE) helps reduce crash damage
- Engineered Flex Technology (EFT) helps reduce rider fatigue
- Progressive Damping Control (PDC) helps reduce machine vibration
- Knurled grip area to help prevent grips slipping and twisting
- Polished throttle area to give a smoother throttle action
- Laser etched alignment grid for the perfect setup
- Colour anodised to prevent corrosion
- Includes a high-density foam pad with a hard wearing PVC cover
- Available in a variety of bends to suit most racers

FOR PRODUCT CODES SEE PAGE 7

F7 Taper Bars are manufactured from 7075-T6 aluminium and feature Oversize Taper Extension (OTE) to give the ultimate strength and crash resistance, whilst Engineered Flex Technology (EFT) and Progressive Damping Control (PDC) helps provide just the right amount of flex and reduces machine vibration to help combat rider fatigue.

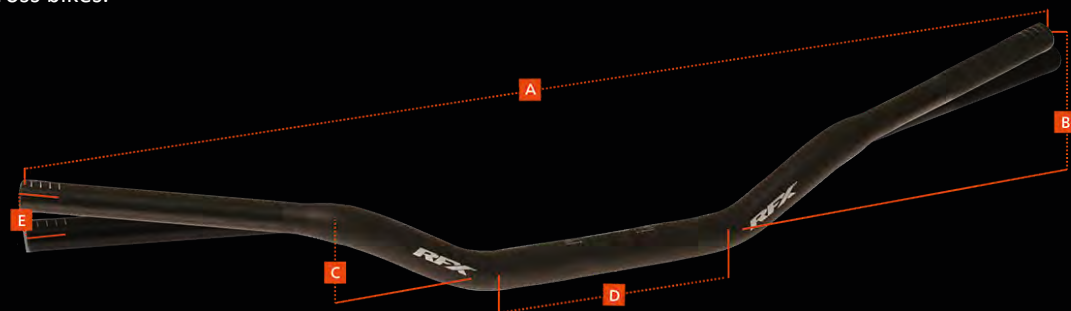

OTE is a lengthening of the central oversize (28.6mm) section. Increasing the oversize section to run past the final bend in the handlebar adds significant strength to the weakest part of any handlebar, couple this with a 5mm wall thickness that stays consistent even on the outside of the bends and the F7 taper bars are some of the lightest yet strongest bars on the market.

EFT is designed to give a small amount of flex in the bars. Carefully selecting an inner wall thickness of 5mm through the rise and taper area of the bars helps to reduce the effects of jarring in large impacts whilst providing the rider maximum front-end feel in corners.

PDC is created using a larger wall thickness of 5.3mm on the handlebar grip area, this has been calculated to balance and dampen against the effects of handlebar vibration. This is a similar principal to the handlebar weights used in sports bikes but is specifically designed and tested to suit the vibration range produced by modern high performance 4 stroke motocross bikes.

GRIPS

PRO SERIES

Dual Density Grips

RFX Grips are manufactured from high spec synthetic kraton polymer and feature the vibration reduction benefits and stickiness of natural rubber but resist damage caused by sunlight and chemicals that occur with natural rubber.

RFX Grips feature a dual density design which allows for an external 60 SA compound that is more durable and resists crash damage. Yet has a soft centre 25 SA compound grip area for the best vibration resistance and comfort available.

RFX Grips use the industry standard half waffle design with a level RFX logo on the palm, this upper diamond and lower waffle design gives the best combination of palm area comfort and lower grip for muddy conditions.

CLUTCH LEVER ASSEMBLIES

PRO SERIES

FACTORY EDITION

Clutch Lever Assembly (CNC)

RFX Pro Series Factory Edition Clutch Lever Assemblies have been designed and tested with the help of top UK professional race teams.

The aim was to produce a lever assembly that is extra strong, includes an oversize quick adjuster for ease of adjustment when riding, a rubber boot that covers all the internals of the lever increasing service intervals, a lever with a pivot point bearing and a lever ratio that provides a positive yet light clutch actuation.

PRO SERIES

Description	Colour	Part Number

Replacement Bolt Set - 4pcs	-	FXCA 90604 99SV

Features:

- High grade 6061-T6 billet aluminium lever bracket
- Hard wearing hard anodised lever bracket
- Hard wearing hard anodised quick adjuster and screw
- Bespoke flexible rubber protective boot
- Oversize 50mm quick adjuster
- Machined stainless steel hardware
- Forged lever with pivot point bearing
- Ultimate durability and strength
- Lightweight
- Lasting stylish look

PRO SERIES

Clutch Lever Assembly (Forged)

RFX Pro Series Clutch Lever Assemblies have all the same great features as the Factory Edition but include a forged lever holder with colour anodising instead of the billet machined part. This helps reduce cost and makes this an excellent affordable high grade lever replacement for everyday racers.

GEAR LEVERS

PRO SERIES

FACTORY EDITION

Flex+ CNC Gear Lever (CNC)

RFX Hardware Factory Edition CNC parts are designed, tested and manufactured for the serious competitor.

Using our 30 years of racing and engineering experience we have blended quality designs, superior materials and precision manufacturing processes to create factory racing parts available to everyone.

RFX Flex+ Factory Edition gear levers offer the best in aftermarket replacement gear levers. Featuring a new style anti-stick tip which resists dirt build up thanks to an enclosed spring design, also included is a new style low profile tip bolt which stays tighter for longer.

Features:

- New Anti-Stick folding gear tip
- New enclosed tip design
- New low profile gear tip bolt
- CNC machined shaft and tip for increased strength
- Knurled tip for improved gear shifts
- Stainless steel spring & Pivot to resist corrosion
- Laser etched RFX logo

FOR FITMENT CHARTS & PRODUCT CODES SEE PAGE 141

RACE SERIES

Gear Levers

RFX Race Series Gear Levers are the leader in OEM replacement gear levers.

Manufactured from high quality forged aluminium for improved strength and durability with spring loaded forged knurled tip for improved gear shifts.

Colour coded for bike make with a laser etched RFX logo

Features:

- Forged aluminium shaft
- Forged knurled tip
- Laser etched RFX logo
- Colour anodised for that factory look
- Stainless steel hardware

FOR FITMENT CHARTS & PRODUCT CODES SEE PAGE 141

REAR BRAKE PEDALS

RFX Pro Series Brake Pedals are designed and tested at the highest level.

Pro Series Brake Pedals are manufactured from 7075-T6 aluminium and feature an OEM type forged shaft, a smooth finish on the shaft helps to reduce the wear associated with a ridged design.

Pro Series Flexible Tips are CNC machined billet aluminium and feature a spring loaded rotatable tip which under impact such as in a rut will spin to reduce damage. The tip also features steel teeth to help grip in muddy conditions.

Pro Series Flexible tips also incorporate a stop on the pivot tip, this stops the tip at 90 degrees of rotation preventing damage that can occur if the tip rotates under the clutch cover.

Pro Series Brake Pedals also incorporate a cable brake snake, this helps prevent the pedal shaft being bent around in a collision.

PRO SERIES

FACTORY EDITION

Rear Brake Lever (Solid Tip) (Hard Anodised)

Features:

- New 2 position adjustability on tip
- New optional hard anodised tip version available for current models
- New hard anodised black shaft to prevent corrosion and reduce wear
- Replaceable Stainless Steel teeth for increased grip
- Laser etched logo

PRO SERIES

Rear Brake Lever (Solid Tip) (Colour Anodised)

Features:

- 7075-T6 Billet solid tip, with flow design
- New style brake snake with adjustable clamp
- Colour anodized for that factory look
- Supplied complete with bearings and bushes for selected models
- Laser etched logo

FOR FITMENT CHARTS & PRODUCT CODES SEE PAGES 142-143

PRO SERIES

Rear Brake Lever (Flexible Tip)

Features:

- 7075 aerospace aluminium construction
- T6 heat treated to increase tensile strength
- Forged shaft for increased core strength
- Smooth shaft design to reduce surface wear
- CNC machined billet flexible tip
- Rotating action reduces impact damage
- Steel insert teeth for increased grip
- Mechanical stop on the tip
- Incorporated brake snake
- Colour anodised to prevent corrosion
- Laser etched logo

KICK STARTS

PRO SERIES

Kickstarts

RFX Pro Series Kickstarts meet or exceed OEM specification. Kickstart arms are manufactured from forged aluminium and feature a forged steel knuckle to provide strength and optimum fit. They come in a hard anodised finish to increase corrosion resistance and help keep that factory look.

Features:

- OEM Replacement
- Forged Aluminium Construction
- Forged Steel Knuckle
- Hard Anodised Finish

RACE SERIES

Kickstarts

RFX Race Series Kickstarts meet or exceed OEM specification. Kickstart arms are manufactured from forged aluminium and feature a forged steel knuckle to provide strength and optimum fit.

Features:

- OEM Replacement
- Forged Aluminium Construction
- Forged Steel Knuckle

FOOTRESTS

PRO SERIES

Shark Teeth Footrests

Factory Edition versions are available in a hard anodised Titanium grey, these give the footrest the ultimate in wear resistance.

RFX Pro Series Shark Teeth Footrests are all new and feature a revolutionary tooth design.

New forward and backward facing teeth help increase rider grip even when the teeth start to wear, this is a major advantage over previous designs which relied on the sharpness of the teeth to hold the rider firmly to the pegs.

New minimalist inner brace design helps reduce weight and give exceptional mud clearing abilities. This design is only achievable using aerospace grade 7075 aluminium and T6 heat treatment.

New style teeth are fully replaceable and are held in using only three bolts, this enables the footrest to be easily kept in the best condition.

Factory Edition versions are available in a hard anodised Titanium grey, these give the footrest the ultimate in wear resistance.

RFX Pro Series Shark Teeth Footrests are available for all late model motocross and enduro bikes.

RFX Pro Series products are designed and tested with the help of top UK and International race teams.

Features:

- New shark teeth style forward and rearward facing teeth for the ultimate grip
- New minimalist centre design for reduced weight and mud clearing
- New 57mm wide platform
- Easily replaceable teeth with just a three bolt installation
- 304 Stainless steel teeth for reduced service intervals
- CNC machined from aerospace grade 7075-T6 heat treated aluminium
- Available for all late model motocross and enduro bikes
- Brand colour matched anodising
- RFX Laser etched Logo
- Tested by top UK and International race teams

NEW // RESERVOIR CAP KITS

PRO SERIES

Reservoir Covers

RFX Pro Series Reservoir Covers are CNC machined from aerospace aluminium and are a perfect factory style replacement to your standard reservoir covers.

Features:

- CNC machined from aerospace grade aluminium
- Tighter tolerances than OEM cast part
- Highly polished then colour anodised for that factory look
- Laser etched RFX logo
- Available in a variety of colours for a wide range of models
- Also available KTM clutch reservoir covers to accept standard hot start levers

FORKS

LAUNCH CONTROLS

PRO SERIES

2 Dual Button Launch Control

The new dual button design allows rider preference in different conditions and features a new plunger which is machined further away to give greater clearance on new KTM models but also has extra reach to ensure max engagement. The new hinged latch design eliminates snag on the rear of the fork guard by replacing the rear bolt with with two smaller bolts in the front. New deeper profile catch eliminates false disengagement when crossing the start gate. Hinged design also allows easy installation.

Features:

Button

- Allows for rider preference in different conditions
- Plunger sits further away to give greater clearance (KTM) and has extra reach to ensure max engagement
- Low profile design is only 20g heavier than single button
- Four bolt design for greater security
- CNC Aerospace grade billet aluminium construction
- Hard anodised colour

Latch

- Two bolt design ensures no hindrance on fork guard
- Deeper profile latch ensures maximum hold
- Easy installation due to hinged design
- CNC Aerospace grade billet aluminium construction
- Hard anodised colour
- RFX laser etched logo
- Tested by top UK race teams

FOR FITMENT CHARTS & PRODUCT CODES SEE PAGE 149

Launch Control

RFX Launch Controls allow you to lower and lock the front suspension to stop the front wheel lifting under hard acceleration off the start gate.

CNC Machined from billet aluminium and featuring a hinged design to eliminate fork leg removal on installation, steel catch to reduce wear and a four bolt plunger to resist stone damage.

Features:

- CNC machined from billet aluminium
- Hinged design to eliminate fork leg removal on installation
- Steel catch to reduce wear
- Four bolt plunger to resist stone damage

FORK AIR BLEEDERS

PRO SERIES

Fork Air Bleeder

RFX Pro Series Fork Air Bleeders allow you to remove the excess air from both original cartridge and modern dual chamber forks (not for use with air forks). This allows for proper operation of the forks as excess air makes the forks feel harder than normal and can eventually lead to the seals failing.

PRO SERIES

FORK AIR BLEEDER

Model	Colour	Part Number

FORK SHRINKS

RACE SERIES

Upper Fork Guard

Fork Protection Redefined.

Forkshrink brings 360° protection to expensive and very important upside down forks.

The result of 2 years of extensive development and real-world testing, Forkshrink is unlike any product on the market today.

Made from a unique toughened polymer for all round protection from wear, Forkshrink features an internal glue lining to ensure the the product stays put and protects the most vulnerable areas.

Forkshrink offers protection for both new and old forks; keeping newer forks looking fresh and masking imperfections on older ones.

Forkshrink also protects the areas of the fork uncovered by decals, including the rear area and the crucial oil seals.

Features:

- Made from a unique toughened polymer which offers 360° bespoke protection for your forks
- Glue lined internally which ensures this product stays put
- Protects the areas most vulnerable to damage when fitted to your forks
- Masks the imperfections on old forks and protects them from further wear
- Protects new forks against future wear and tear
- Covers the rear area of the fork and all the ridges including those that house all the important oil seals
- Ensures all areas are covered correctly by bespoke shrinking to the exact required size from the initial fitting

FORK SEALS

RACE SERIES

Fork Seals

RFX offer a wide range of fork seals to suit most MX & Enduro Models. Seals are manufactured from high quality base materials and are made to OEM specification, to guarantee quality & durability. RFX Fork Seal Kits come in a pack of two.

PAR HOMES HUSQVARNA

ENGINE

CLUTCH COVERS

PRO SERIES

FACTORY EDITION Clutch Covers

RFX Pro Series Clutch Covers are manufactured to increase oil capacity and circulation improving clutch performance and longevity. Featuring a deeper profile to increase oil capacity by 100cc helps reduce oil temperature in long races especially in extreme muddy/sandy conditions where clutch abuse is most common. Selected models also feature an internal scoop to increase oil flow to the centre of the basket.

RFX Pro Series Clutch Covers are CNC machined from a solid billet of 6061-T6 aluminium which allows thin light weight sections to be machined whilst still increasing strength and durability over standard covers. This helps to resist damage from stones/rocks/footrests and brake pedals which can put a hole in a standard cover.

Features

- 1.5mm deeper profile for increased oil capacity
- Inner scoop design on selected models
- Reduced oil temperature
- High grade 6061-T6 aluminium
- CNC machined
- Ultimate durability and strength
- Lightweight
- Hard wearing akadized surface treatment
- Lasting stylish look

IGNITION COVERS

PRO SERIES

Ignition Covers

RFX Pro Series Ignition Covers are CNC machined from a solid billet of 6061-T6 aluminium which allows thin, lightweight sections to be machined whilst still increasing strength and durability over standard covers. This helps to resist damage from stones/rocks/footrests and gear pedals which can put a hole in a standard cover.

Pro Series Covers also feature an extra tough dark titanium grey Akadized surface treatment which drastically increases the wear resistance from boots and grit to give a lasting stylish look.

DRAIN BOLTS

RACE SERIES

Oil Drain Bolts

Features

- Magnet catches metal contaminants in oil to prolong engine life
- CNC Machined from aluminum 6061-T6 with a lightweight design

VENT TUBES

RACE SERIES

Vent Tubes

Part numbers:

Yellow - FXVT 10000 55YL
Blue - FXVT 10000 55BU
Green - FXVT 10000 55GN
Black - FXVT 10000 55BK
Red - FXVT 10000 55RD
Orange - FXVT 10000 55OR

CNC machined and featuring a one-way valve to allow the gas tank to breathe but stop fuel from spilling out after a fall. Available in six colours.

RACE SERIES

Long Vent Tubes

Replacement vent tube pipe for fuel tank breathers on all modern MX, enduro and trials bikes. Sold as a pack of 5 pieces per colour (minimum 5 packs).

Features:

- 360mm total length
- One-way valve to stop fuel from spilling out after a fall
- Eight different colour combinations
- Universal fitment
- 4mm ID/8mm OD

Part numbers:

Green - FXVT 20000 55GN
Blue - FXVT 20000 55BU
Red - FXVT 20000 55RD
Orange - FXVT 20000 55OR
Pink - FXVT 20000 55PK
Yellow - FXVT 20000 55YL
White - FXVT 20000 55WH
Black - FXVT 20000 55BK

FREE

COUNTER-TOP PRISM

WITH EVERY 5 PACKS OF VENT TUBES PURCHASED

The RFX free standing prism holds up to 40 RFX vent tubes in this convenient counter top display.

Please note Vent Tubes sold separately from display

RACE SERIES

Fuel Mixture Screw for Keihin FCR Carburettor

Part numbers:

Red - FXMS 10100 55RD
Orange - FXMS 10100 55OR
Blue - FXMS 10100 55BU

Designed to replace the standard hard to reach fuel screw to allow for quick and easy adjustments at the track.

Available in red, orange or blue.

ENGINE TIMING PLUGS

PRO SERIES

Engine Timing Plugs

RFX Pro Series Engine Timing Plugs are manufactured from 7075-T6 aluminium for increased dimensional stability under high heat and pressure conditions. CNC machined for tighter manufacturing tolerances helps these plugs stay in place over standard plastic plugs which are prone to failing.

RFX engine plugs also feature handy 8mm and 6mm hex key heads for easier installation.

Features:

- 7075-T6 aluminium construction
- 8mm and 6mm hex key head
- Colour anodised
- Lightweight hollow design
- Accepts OEM O-rings

OIL FILLER PLUGS

PRO SERIES

Oil Filler Plugs

RFX Pro Series Oil Filler Plugs are manufactured from 7075-T6 aluminium for increased dimensional stability under high heat and pressure conditions.

RFX filler plugs also feature a handy 13mm hexagon head and a locking wire hole, these help ensure your oil plug stays in place under extreme riding conditions, as plastic plugs are prone to failing.

Features:

- 7075-T6 aluminium
- 12mm hexagonal head
- Lightweight design
- Accepts OEM O-rings

FACTORY AIR FILTER

RACE SERIES

Factory Filter

NEW to the RFX range and produced by Multi Air, the RFX Air filter is the perfect choice for all levels. Let your bike breath with twin layered foam and precise fitment. With over 30 Years experience, Multi Air is a name you can trust.

Features:

- Breathable twin layered foam.
- Non flammable foam used on all 4 stroke models.
- Industry leading Multi Air Filter.

BRAKE DISCS

RACE SERIES

Brake Discs

RFX Race Series Discs are designed and tested at the highest level by top World and British championship race teams.

Precision laser cut from high grade stainless steel and heat treated for wear resistance, RFX Discs also feature a special comaxit heatproof coloured finish on non-wear faces for the best corrosion resistance.

RFX Race Series Discs are surface ground to within 0.01mm for instant brake feel and reduced fade.

RFX Race Series Discs are the new price leader in OEM replacement brake discs.

Features:

- Laser cut from high grade quality stainless steel
- Heat treated to withstand excessive brake pad wear
- Comaxit coating (metal colour surface treatment)
- CAD designed profile for lightness and reduced un-sprung weight
- Wave design ensures maximum pad cleaning
- Precision cut vented holes and wave design dissipate heat

FOR FITMENT CHARTS & PRODUCT CODES SEE PAGES 150-152

BRAKE PADS

PRO SERIES

Brake Pads

Pro Series sintered copper Brake Pads are designed and tested at the highest level. A superior compound of elements are used to produce brake pads with exceptional stopping power, superior resistance to heat fade and a quick bed in time.

The sintered fully metallic copper formula is tested specifically to suit the motocross and off road pro rider. Our Pro Series brake pads provide stopping power and brake feel in excess of OEM brake pads, with the added benefit of improved pad life in the harshest wet mud and sand conditions.

Features:

- Premium sintered blend of elements with a large percentage of copper
- Provides exceptional stopping power
- Reduces heat fade in harsh braking conditions
- Facilitates quick bed in time
- Vacuum heat press manufacture ensures top quality adhesion to the backing plate
- Selected models supplied with a heat dispersing rear shield as OEM
- Suitable for all motocross and enduro machines from 50cc - 600cc

HANDGUARDS

PRO SERIES

Dual Injection Handguard

RFX Pro Series Dual Injection Handguards are manufactured to the highest standards using the latest technologies, featuring moulded ribs on the underside to improve strength whilst also reducing weight. They can be easily mounted to all RFX handlebars and can be adjusted horizontally to suit the rider. Available in a range of colours to help you get the custom look you require.

Features:

- Dual injection moulded for improved strength and durability
- Large vent area
- Open-ended
- Universal mounting - handlebar mounting kit included

DISC & CALIPER GUARDS

RFX Pro Series Disc Guards help reduce brake disc damage by preventing rocks and roost from hitting and damaging the disc. RFX Disc Cap - Guards also feature a wheel spacer fitment to speed up wheel changes whilst the design still allows the caliper to be cooled by air for improved braking. Suitable for use with oversize discs.

PRO SERIES

Disc Guards

Features:

- High strength plastic guard
- Protects brake disc from rocks and roost
- Accepts oversize 270mm brake discs
- Allows air to cool the brake caliper unlike most OEM guards
- Bracket replaces wheel spacer for quicker and easier wheel changes
- Billet aluminium bracket construction
- High stick 3M colour coded RFX decal
- Multiple colour combinations available
- Model specific bracket is required

DRIVE CHAIN

PRO SERIES

Elite Rear Sprockets

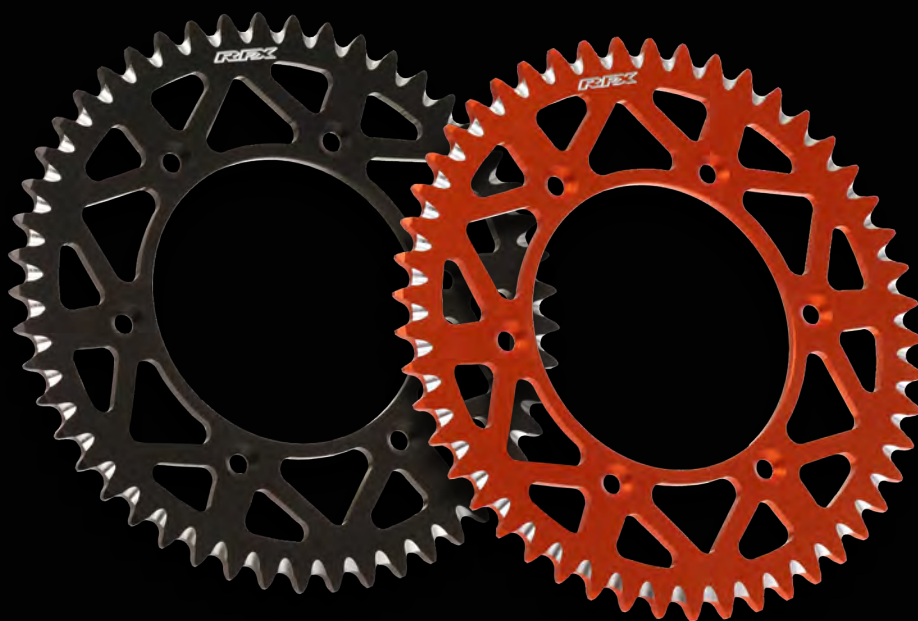

Designed and tested at the highest level by top World and British championship race teams.

CNC manufactured from 7075 aerospace grade aluminium and featuring mud clearing grooves for maximum wear resistance and improved chain life.

RFX Elite Rear Sprockets feature a CAD designed profile and include a solid inner ring, this increases torsional strength and reduces flex and pressure on bolt holes.

KTM

Black/Orange

Features:

- Laser etched RFX logo
- CNC machined from 7075 aerospace aluminium
- Mud clearing grooves for longer lasting sprocket life
- Colour coded for each model of bike
- CAD designed profile for lightness
- Rigid design increase torsional strength
- Tighter tolerances improve performance
- Colour anodised for that Factory Bike look
- Various colours available for all models

RFX ARMALITE LITE

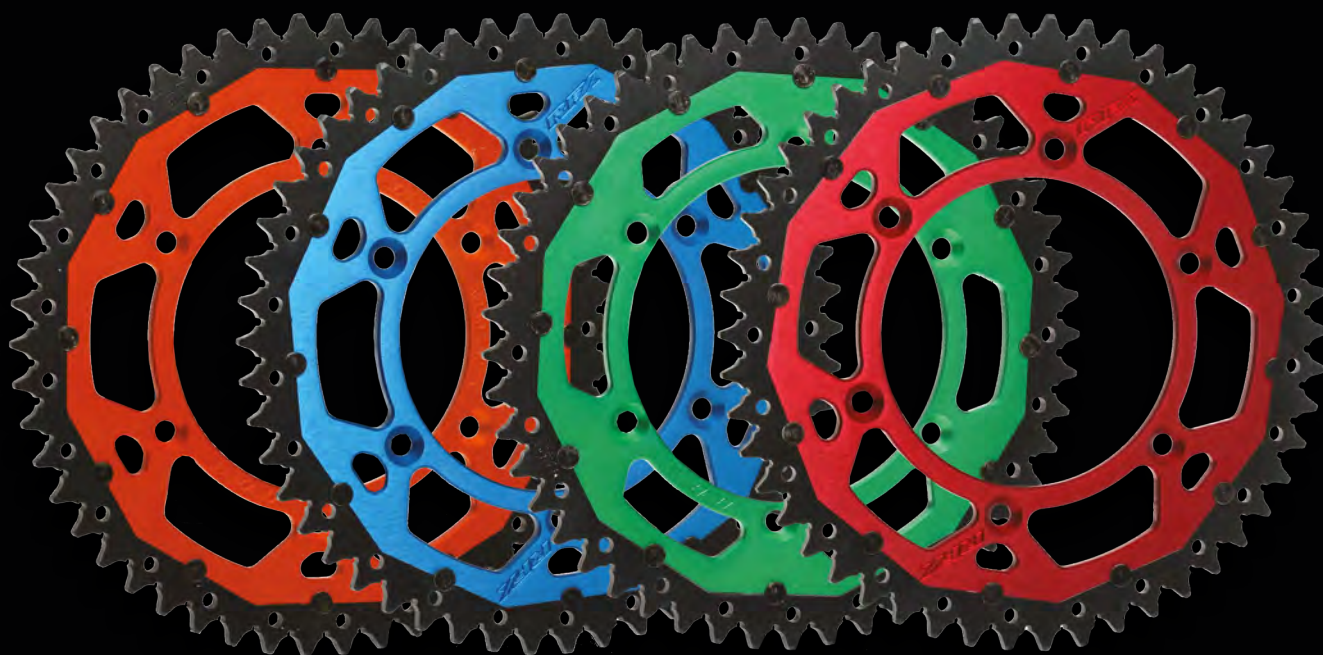

PRO SERIES

Armalite Rear Sprockets

RFX Pro Series Armalite Rear Sprockets are designed and tested at the highest level by top World and British championship race teams.

Featuring a new dual ring design, long lasting high carbon steel outer teeth and reduced weight as a result of a 7075-T6 aluminium centre, this provides the ultimate in sprocket performance.

Armalite sprockets also feature a hexagon drive interface between the inner and outer ring. This is revolutionary technology for sprockets and maximises drive between the two parts and reduces the force on the rivets to zero, in comparison to other items on the market.

Features:

- CNC 7075 aerospace aluminium inner ring
- HCS outer ring
- Hex-Drive location between inner & outer ring
- CAD designed profile for lightness
- New style mud clearing grooves to reduce wear
- Rigid design increases torsional strength
- Colour anodised for that Factory Bike look

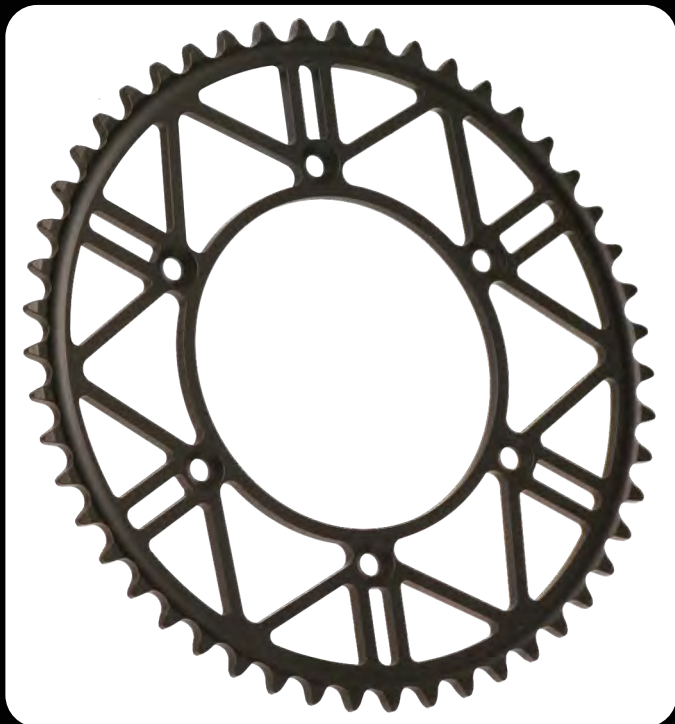

FOR FITMENT CHARTS & PRODUCT CODES SEE PAGE 158-162

RFX HCS SPROCKETS

PRO SERIES

HCS Rear Sprockets

RFX Pro Series Hi-Carbon Steel (HCS) Rear Sprockets are perfect for riders looking for longevity and value for money from their sprockets, without compromising on quality. Certified Hi-Carbon Steel offers unbeatable wear properties and its added strength in comparison to mild steel, allows for a lighter profile design to ensure the weight increase over aluminium is kept to a minimum.

Features:

- Certified Hi-Carbon Steel
- CNC laser cut
- CAD designed profile for lightness
- Mud clearing grooves to reduce wear
- Rigid design increases torsional strength
- Tighter tolerances improve performance

FOR FITMENT CHARTS & PRODUCT CODES SEE PAGE 158-162

FRONT SPROCKETS

PRO SERIES

Front Sprocket

Features:

- CNC Machined
- Case hardened to 60 Rockwell
- Lightening holes
- Self clearing mud grooves
- Black Zinc finish

RACE SERIES

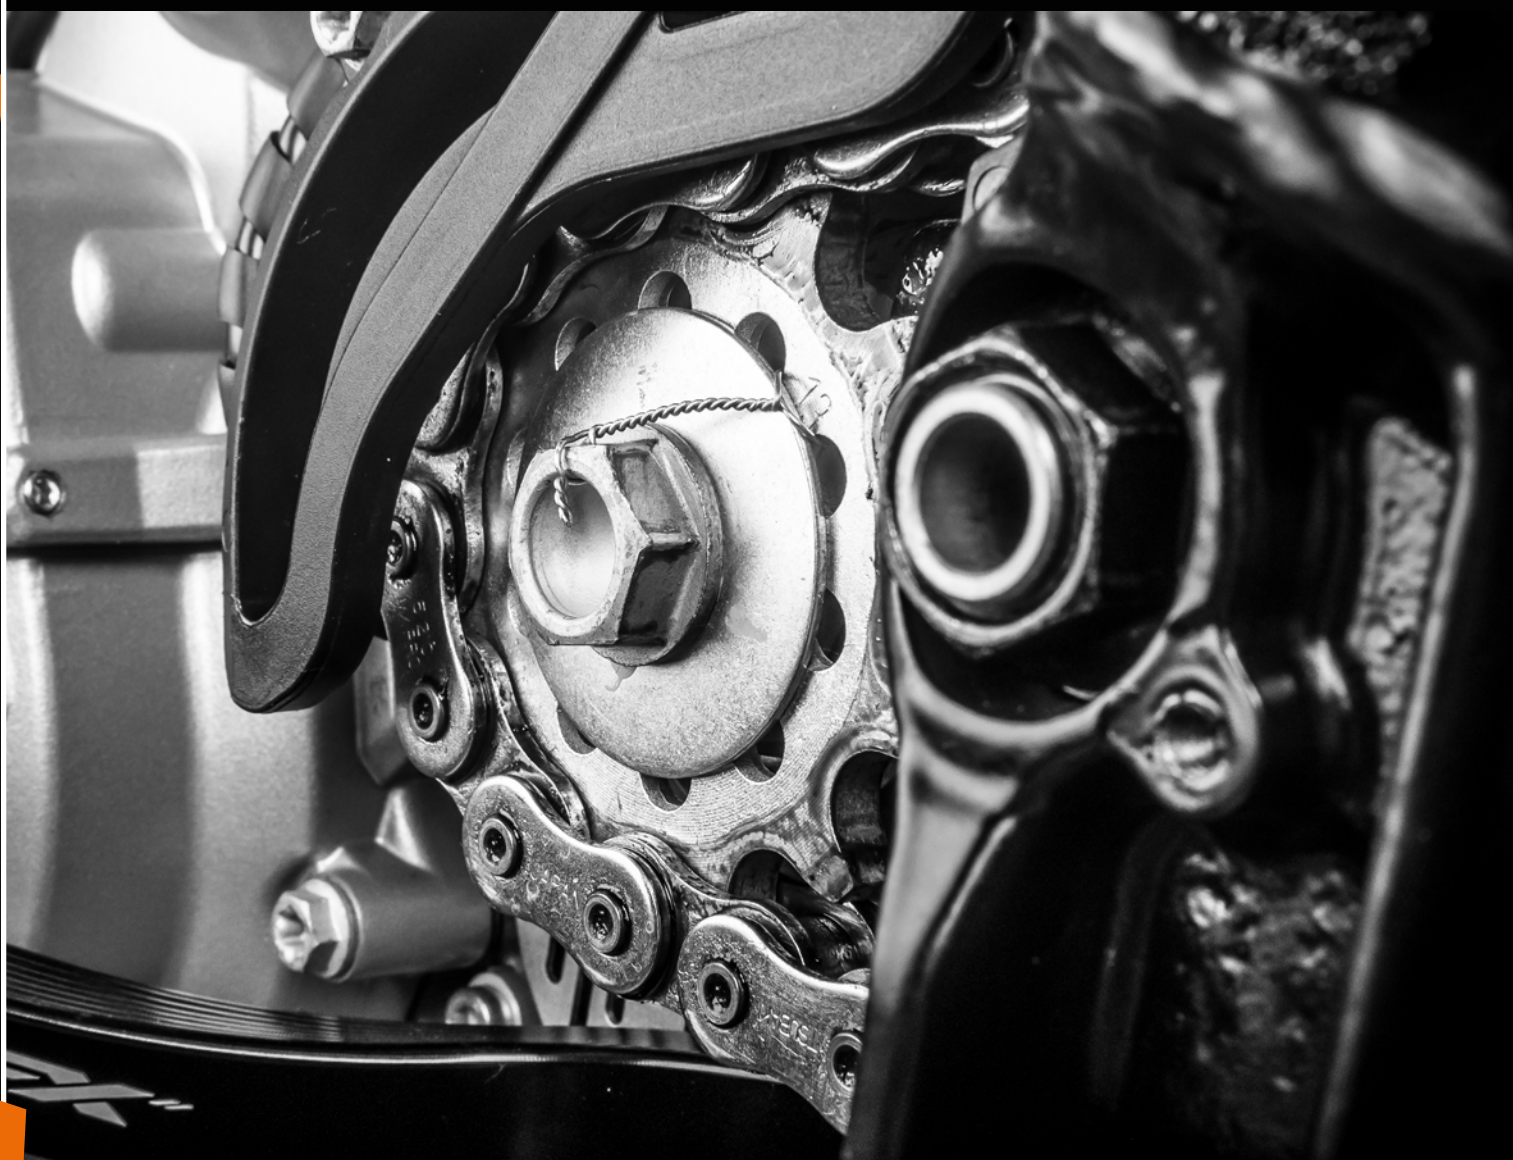

Front Sprocket

Features:

- CNC Machined to extremely tight tolerances
- Case Hardened and core refined Alloy steel that gives you the best strength and durability

- Alignment scales both sides for precision
- Colour anodised for that factory bike look

WHEEL SPACERS

PRO SERIES

Wheel Spacers

RFX Pro Series wheel spacers are constructed from 7075-T6 aluminium with an anodised finish and this results in a lighter and more durable component in comparison to OEM.

The wheel spacers reduce surface wear and minimise the amount of dirt entering the hub which in turn extends the life of the bearing.

Designed with a rear lip which helps to keep them hooked into the seals, this decreases the chance of falling out during maintenance and speeds up wheel changes.

Hi Vis

Green

Orange

Black

A heavy duty single pillar H lift up design. Manufactured from heavy duty steel and designed with a wide stand footprint for stability and a non-slip rubber mat for bike security.

The single pillar design features a solid nylon bush and a lever arm with a progressive linkage to provide the smoothest and easiest action possible.

Powder coated to resist fading in sunlight and washing chemical contact. Available in six colours to suit 125cc-600cc machines.

DYLAN WALSH REVO SEVEN KAWASAKI

WET JACKETS & RAIN COATS

Wet Jacket

Available in adult & youth sizes

Perfect for those muddy meetings. Featuring underarm and back venting, taped seams, lycra wrist and waist binding and reflective piping.

Constructed from a clear PVC to enable race gear and riding numbers to be seen.

Rain Coats

Perfect for those muddy meetings, as a spectator or a mechanic for washing the bike. Featuring underarm and back venting, taped seams, lycra wrist, reflective piping and zip front.

Constructed from PVC to ensure strong protection and weather resistance. Sizing ranges from Adult Medium to 2XL.

BEARINGS

BEARING KITS

RFX Race Series Bearing Kits are an affordable solution for customers in need of replacement motorcycle chassis pivot bearing kits. Supplied complete with all bearings, bushes and seals required for a one stop rebuild of your motorcycle or ATV chassis and suspension.

Kits are provided separately for each individual pivot point.

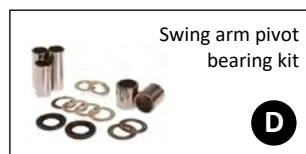

RFX use only premium quality bearings and seals in their Race Series chassis rebuild kits.

Features:

- Full complement bearing design for increased load resistance
- Precision ground needle rollers
- Cadmium plated bushes for increased durability
- Meets Original Equipment Manufacturer (OEM) Standard
- Contains all bearings, seals, washers and collars needed
- Kits available for most models

Available kits:

WHEEL BEARINGS

SPORT SERIES

RFX Wheel Bearings are premium quality and feature two rubber seals for increased wear protection. An ideal replacement for your standard wheel bearings and are suitable for the most extreme off road conditions. Please refer to the fitment and price chart to check the availability of bearings for your bike.

PRO SERIES

Pro Series products are CNC machined using only the highest grade aerospace aluminium to produce products for the pro level racer where machine failure is not an option.

RACE SERIES

Race Series products are manufactured using a metal forging process to increase inner core strength and resist damage in collisions.

SPORT SERIES

Sport Series products are designed and manufactured at a price suitable for all racing budgets utilising mass production techniques such as die casting to drive down the cost of everyday racing items, whilst maintaining a quality suitable for the average racer.

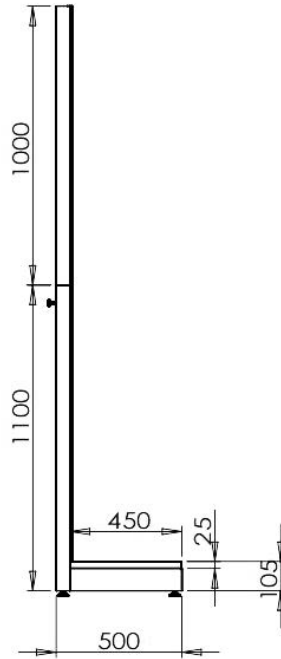

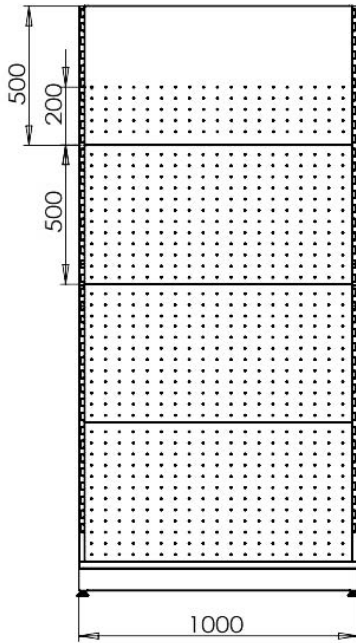

POINT OF SALE

RFX Hardware Point of Sale Stands

The RFX Hardware Point of Sale Display Stand (pictured right) is 100cm wide with a height of 210cm. The stand is supplied with all the necessary hooks to dress the stand. The stand will arrive flat packed and some assembly will be required.

- RFX 2x1m POS stand
- 40x peg hooks

- RFX Slatwall Headers (printed to size depending on space available)
